

## NORFOLK WOMAN GAINS 39 POUNDS

After Suffering Two Years  
Mrs. Ingram Says Tanlac  
Ended Her Troubles.

"I believe Tanlac is worth its weight in gold," said Mrs. Mary J. Ingram, of the Alhambra Hotel, Norfolk, Va., recently. "Tanlac has not only done me a world of good," she continued, "but it has helped my daughter and several of my friends who have taken it. I suffered from rheumatism in my shoulders, arms and legs for two years, my joints ached terribly and my fingers were so stiff and painful I didn't have good use of them. My appetite was poor and the little I did eat seemed to do me no good, for I fell off till I was down to a hundred and six pounds and felt so dull, tired and exhausted it was an effort for me to get through with my work."

"But since taking Tanlac a while I feel just like a new person. My appetite is just splendid and I can eat anything and my wonderful increase in weight—thirty-nine pounds—shows how well my food agrees with me. I never feel a sign of rheumatism now. I am not the least bit nervous and sleep like a child. That tired, worn-out feeling is gone, and I have been built up and strengthened till my work is more like play to me. I just can't praise Tanlac too highly for the wonderful benefits I have derived from its use."

Tanlac is sold in Memphis exclusively by Weiss' Pharmacy and Warrick Drug Co.

"I can't have any fun! I am such a  
sight with this eczema that people avoid  
me wherever I go. And the itching  
torments me so that I don't get any  
peace, anyhow."

Don't be discouraged! Even in se-  
vere, well-established cases of eczema,  
ringworm or similar skin-troubles, Resinol  
Ointment, aided by Resinol Soap,  
usually relieves the itching at once and  
quickly clears the eruption away.

Doctors prescribe the Resinol treatment. All drug-  
stores sell Resinol Ointment and Resinol Soap.

## RUSSIAN OUTLOOK BACK AS CAN BE FOR ANTISOVIET

London War Office Reports  
Show Denikine's Army Is  
Cut in Two and Its Flanks  
Thrust Back.

LONDON, Jan. 9.—The situation in Russia is about as bad as could be from an anti-Bolshevik point of view, according to British war office reports, and there are few signs indicating any likely improvement. There are two especially menacing developments.

In the first place, Gen. Denikine's army has been cut in two through the Bolshevik push to the sea of Azov at Taganrog and its flanks have been thrust back, leaving a large gap. In addition comes the claim of the Bolsheviks of the capture further east of the town of Krasnovodsk, on the Caspian sea, and while this is not confirmed it is generally accepted as true. The capture of this important port of Krasnovodsk, it is pointed out, creates the grave possibility that the reds may overrun Northern Persia and occupy Teheran which probably would mean the establishment of Bolshevik rule in Persia. The taking of Krasnovodsk permits the reds not only to control a large part of the important Krasnovodsk-Merv railroad, but gives them free access to the Caspian.

There seems little then to prevent them from gaining control of the Caspian from the more or less ineffective volunteer fleet. Once in possession of this sea there remains only a small British force and the poorly organized Persian forces between the reds and occupation of Teheran and Northern Persia through which would exist the possibility of their obtaining control of the whole country.

Baku with its important oil supplies on the western coast of the Caspian seems likely also to fall into Bolshevik hands and its occupation would provide a base for further operations against the rear of Denikine's hard-pressed right wing.

If the Bolshevik reports are true, Gen. Denikine has suffered a considerable disaster for not only have the reds severed all land communication between his left and right wings but they have captured large quantities of war material, including much that was sent to him by the allies.

There is little hope held out here that, deprived of these supplies the Denikine forces can hope to make a resistance that would prove effective against the overwhelming red army.

## STATE PROSPEROUS BUT ASK CHANGES

Mississippians Wish to Have  
Changes Made in Laws  
and Institutions.

BY MARTIN ANDERSEN.  
NEW ORLEANS, Jan. 9. (Sp.)—The higher cost of eking out a living in prosperous Mississippi is revolutionizing conditions in that state.

The town of Decatur is without a mayor. Natchez barber shops are being threatened with bankruptcy.

And the people of Greenwood have at last been forced to pay cash for marriage licenses.

These necessities—or luxuries, in the case of the marital documents—are all traced directly to the popular subject of the day—what has begun to be known as form 26 among the newspaper fraternity—the higher or highest cost of living.

J. S. Milley, who has held with customary dignity the office of mayor of Decatur for a number of years, and whose ambition and boast of friends has been that he would carry the title unto death, has finally been forced to quit.

"I couldn't survive on the price the town paid me. And I know that the people can not be taxed to pay more. They would starve," he is reported to have explained.

Over in Natchez the barbers recently demanded 50 cents for hair cuts and 25 cents for shaves.

"We won't pay it," said the patrons of the tonsorial parlors.

Business then picked up with dealers in safety razors. It seems that the shaving public has stuck to their agreement. Barbers are wondering where the rent for the first month of the new year is coming from.

Case No. 3, while not strictly due to the effects of the wild rampage of profiteers on the country, has also to do with form 26.

Sharkey Tate, circuit clerk of Le-flore county, of which Greenwood is the capital, recently admonished the marrying public—just as the Natchez barbers warned the shaving public—of a revised arrangement in the purchasing of the all-important to a holy wedlock.

"This is to notify the public that no marriage license will be charged," he wrote in a notice through the public press. "No more orders can be taken over the phone. (Regular cash and carry system.) It will be necessary for each order to be accompanied by cash."

The obliging Mr. Tate concludes with the statement that he would "be glad to extend the same courtesies along this line that I have done in the past, but I will be compelled, etc., etc."

Such is life today in Mississippi.

## APPEAL IS MADE FROM SUPERVISORS

LAMBERT, Miss., Jan. 9. (Sp.)—The members of the former board of supervisors have appealed the jail sentence imposed on them by Judge W. A. Alcorn of Clarksdale. The sentence was for 10 minutes in jail. Judge Alcorn issued a writ of mandamus to the board, requiring them to change the reality assessment rolls to conform to the figures set by the state tax commission. The board flatly refused to obey, hence the jail sentence.

## NURSE TO ARKANSAS.

BLUE MOUNTAIN, Miss., Jan. 9. (Sp.)—Miss Avice Carmichael, a former teacher in Blue Mountain high school, and who was one of the Tiphah young women to see service as a Red Cross nurse in Europe during the world war, has just been given a position as nurse and some other work on the faculty besides in Hendrix college, Conway, Ark. During the perilous days of the war Miss Carmichael spent most of her time in an American base hospital in Liverpool, England, where she did a great work for her country.

## SET PRIMARY DATE.

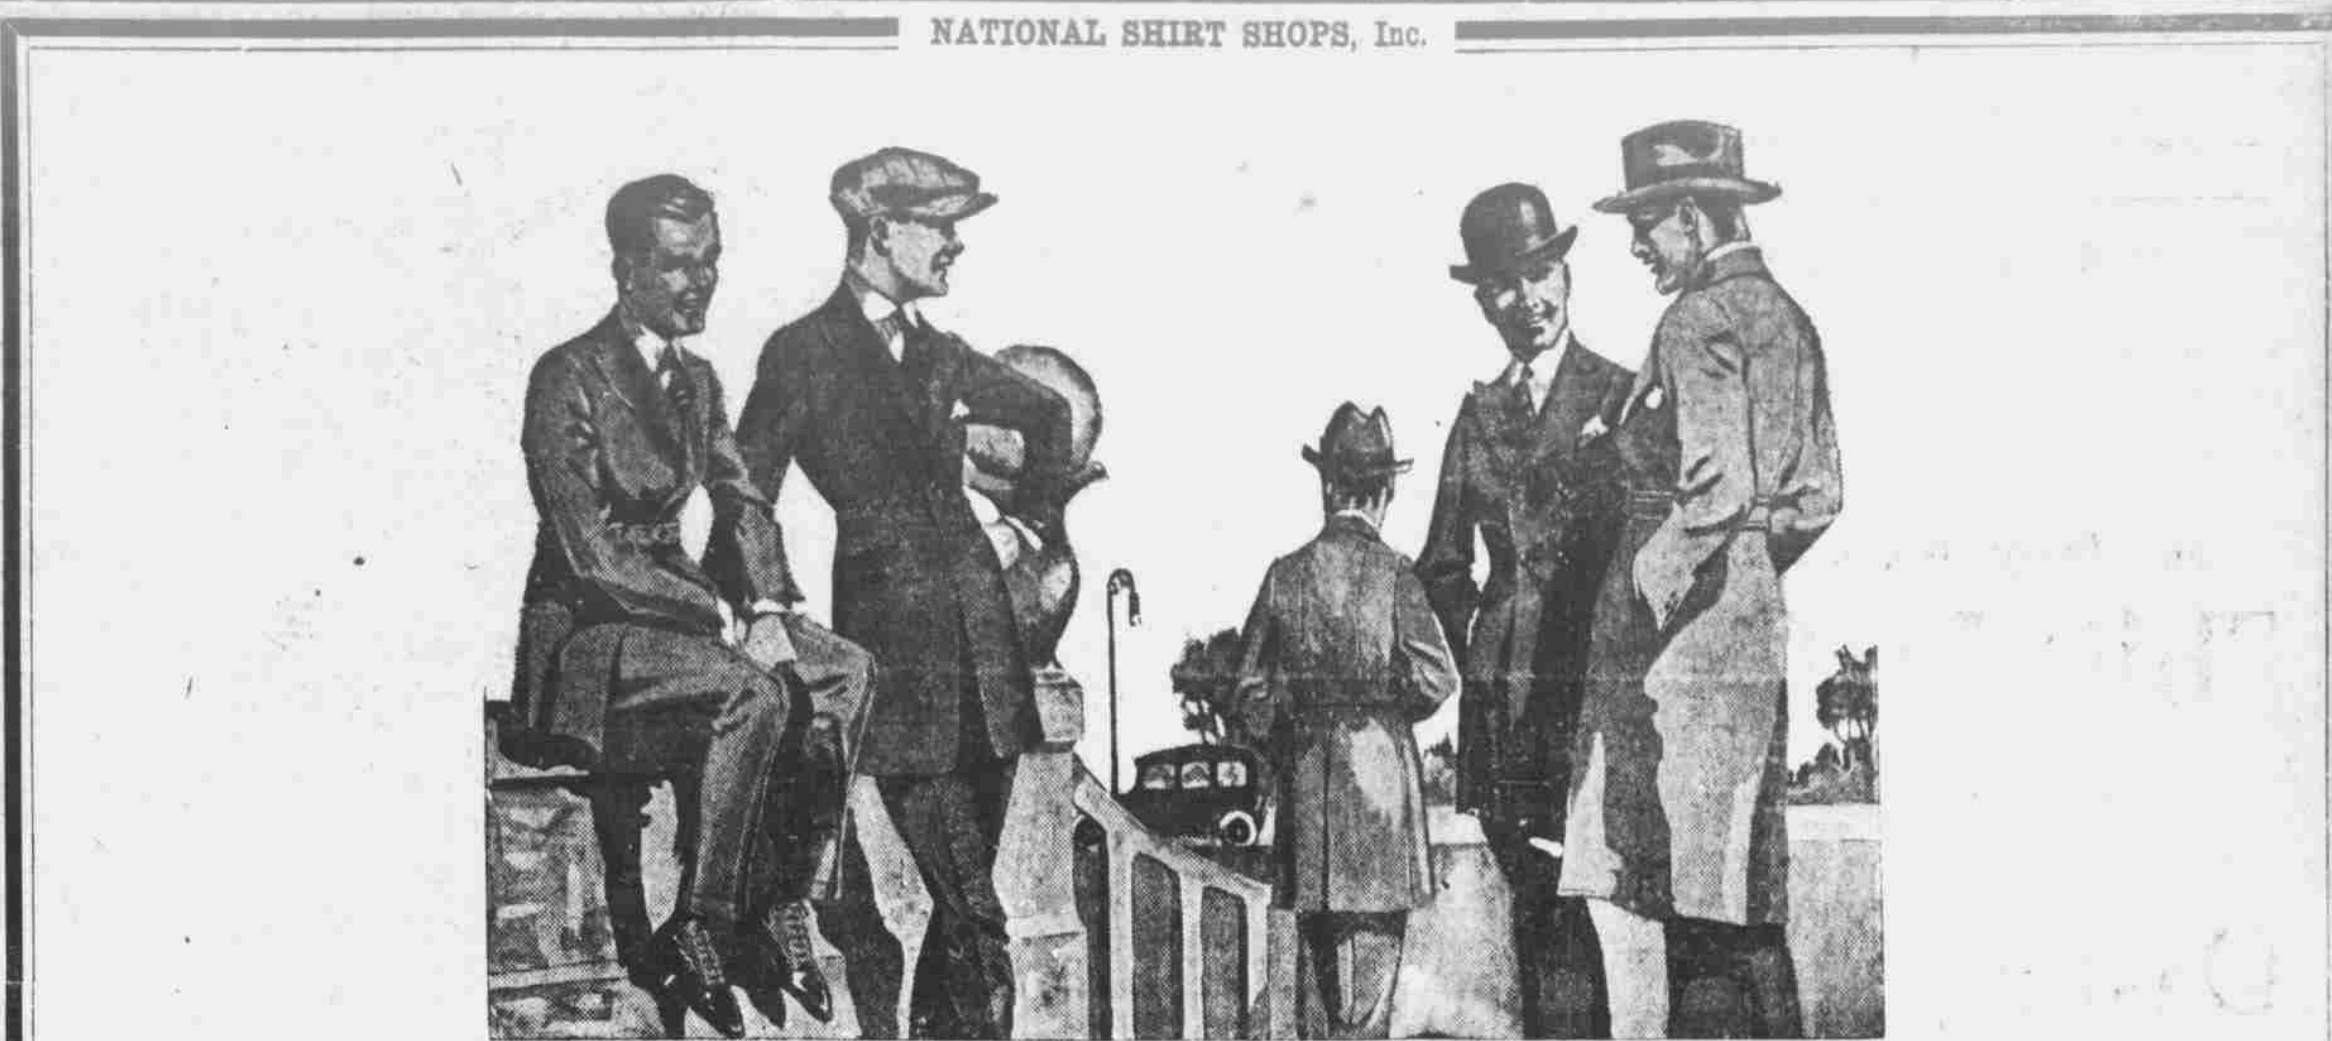

RICHMOND, Va., Jan. 9.—The Democratic committee of the Fourth congressional district has fixed March 18 as the date for the primary to nominate a candidate to succeed the late Representative Walter A. Watson. Nomination is equivalent to election.

## RUSSELL MAKES RECOMMENDATIONS

New Executive Asks Solons to  
Enact Some Radical  
Changes in Laws.

JACKSON, Miss., Jan. 9. (Sp.)—The recommendations in Governor-elect Lee M. Russell's inaugural address will not differ in any material or important respects from the suggestions set forth in the final message of Gov. Theo. G. Bilbo.

The incoming and outgoing governors think alike on nearly all of the important questions likely to be brought before the lawmaking body at this suggestion.

Among the important suggestions to be made by Governor-elect Russell will be the following:

First—Adoption of the federal amendment conferring suffrage on women.

Second—Liberal appropriations to state institutions for permanent improvements, the necessary funds to be raised with a serial bond issue. Gov.

Bilbo estimates the amount necessary at \$5,000,000, and this sum will doubtless be accepted by his successor.

Third—Issuance of \$25,000,000 in bonds for the construction of a state highway system, a sinking fund to pay the bonds to be raised through a tax on gasoline. Governor-elect Russell will deal at considerable length with this subject.

Fourth—Reforestation of the cut-over lands of Mississippi not suitable for agricultural purposes.

Fifth—Retention of the state tax commission with amendments that will "put more teeth in the law."

Sixth—Retention of the state pardoning board, with probably a few amendments perfecting this method of dealing with appeals for clemency.

All of the above subjects were touched upon in Gov. Bilbo's message. Some of the new subjects to be submitted by the incoming governor are as follows:

First—Providing for a mileage tax for state institutions in order that the governing boards of each may know exactly what portion of the state's revenue they may expect for each biennial period.

Second—Formation of a state department of labor. The governor-elect has given this subject considerable study, and will probably deal with the topic at some length.

Third—Creation of a state marketing and publicity bureau that will enable farmers to find ready markets for their

products, and provide a means of advertising the state's resources.

Fourth—Exemption from taxation of all hotels built in the state for the next two years, exemption to be for a period of from five to ten years. The governor-elect believes that the death of hotel facilities in the state fully justifies this measure.

Fifth—Employment by each county of a health officer who will devote his entire time to the duties of the office.

While a goodly number of other topics will be touched upon by the governor-elect in his inaugural address, the above will constitute the "high spots" in the document.

## OFFICERS ARRESTED BY RUMANIAN'S ORDERS

PARIS, Jan. 9.—The arrest of several military representatives of the allies by a Rumanian officer in occupied Hungary is reported in a Prague dispatch through Geneva today.

The message says the members of a military mission sent by the allies to the Arad district to inspect prison camps and report on alleged atrocities, of which interned Hungarians were said to have been the victims, were arrested by the commanding officer of a concentration camp, who became enraged at the severe criticisms of conditions made by the mission.

## PINE BLUFF ORGANIZES FREE BUILDERS EXCHANGE

PINE BLUFF, Ark., Jan. 9. (Sp.)—The Pine Bluff Builders' exchange was organized by a number of the leading contractors and builders of this city last night, and this is regarded as a step toward an open-shop policy in this city, although it is stated that the purpose of the organization is to give better service to the public by co-operation between the builders and members of the different trades.

The three plumbing firms which have refused a wage increase to the union plumbers, who have been on strike since the first of the year, are members of the new exchange, while the two firms which have signed up are not members of the exchange. The officers are W. W. Ritchie, president; J. A. Wright, first vice-president; H. G. Burnham, second vice-president; W. C. Rountree, secretary; Adam J. Robinson, treasurer.
